

Series 7, Contemporary Double DishDrawer Dishwasher

Series 7 | Contemporary

Stainless Steel

With a contemporary stainless steel finish, each drawer washes independently and fits a half load, so you can run one while you load the other.

- Six wash programs to suit any load, from Delicate to Heavy
- American Disabilities Act (ADA) compliant, this Double DishDrawer™ sits at an accessible height

DIMENSIONS

Height	32 5/16- 34 5/8 "
Width	23 9/16 "
Depth	22 9/16 "

FEATURES & BENEFITS

- Ease of use**
DishDrawer™ Dishwashers are as easy to open and close as kitchen drawers and can be conveniently positioned at bench height for ease of loading and minimal bending.
- Independent Wash**
With the ability to use both drawers independently and select different wash programs the DishDrawer™ Dishwasher can wash everything from fine glass and crystal to heavily soiled pots and pans.

TRUE HALF LOAD

Each drawer holds a true half load for guilt-free small washes and fast turnaround of your dishes. Both drawers operate independently so different wash cycles can run simultaneously to accommodate a variety of loads.

- Easy to load**
Running at a very low decibel rating, these DishDrawer™ Dishwashers do their job without making a fuss. The combination of intelligent technology and simple mechanics means greater reliability and excellent wash performance.

SPECIFICATIONS

Accessories (included)	
Cutlery basket	•
Kickstrip	true

Capacity and loading	
Accommodates round plates up to	11" (top drawer) 11" (bottom drawer)
Fixed height, foldable cupracks	•

		Where applicable:			

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
