# 17 cu ft Series 7 French Door Refrigerator Freezer

Series 7 | Contemporary

Stainless Steel | French hinge

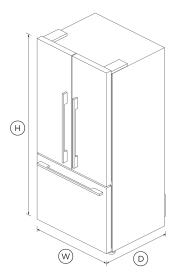

Designed for those who need plenty of flexible space for their cold and frozen food storage, with a stylish stainless steel finish.

- ActiveSmart<sup>™</sup> helps keep food fresher for longer
- · Bottom freezer drawer
- · Brushed metal handles

# **DIMENSIONS**

Height 67 3/4 "
Width 31 1/8 "
Depth 27 3/8 "

#### **FEATURES & BENEFITS**

## Activesmart™ Foodcare

ActiveSmart™ technology understands that the refrigerator door is the most opened in the house. It constantly adjust temperature, airflow and humidity, maintaining an optimum environment and helping keep food fresher for longer.

#### **Design Quality**

Our refrigerators are designed and built using quality materials. We use real stainless steel on our refrigerators and solid glass for shelving.

# **Easy Cleaning**

No more permanent dirty marks with our EZKleen feature for stainless steel refrigerators. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

# Clever Energy

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means your refrigerator uses the energy it needs without compromising on food care.

## **Complementary Design**

With their premium handle styling and stainless steel finish, our refrigerators are designed to match the rest of Fisher & Paykel's kitchen appliance family.

# **SPECIFICATIONS**

## Capacity

Total gross capacity	16.9 cu f
Volume freezer	4.8 cu f
Volume refrigerator	12.1 cu f

## Consumption

Energy star	Energy rating
501kWh/year	Energy usage
176.7kgCO2e/year	In-use energy carbon emissions estimate

#### **Features**

Adjustable door shelves	8
Adjustable glass shelves	3
Covered door shelves	2

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
