RUN CHAMPIONSHIP 2018

Outstanding Visibility with Reliable Performance

XF Series

Outstanding Visibility

High Brightness

With a great brightness of 3,000 nits for the 55XF3E and 1,500 nits for the 32XF1E, this series can clearly and effectively deliver content in outdoor public spaces and capture the attention of people in the area.

Visible with Polarized Sunglasses

QWP (Quarter Wave Plate) enables clear visibility even when the viewer is wearing polarized sunglasses.

Outstanding Visibility with Reliable Performance

XF Series

Outstanding Visibility

Smart Brightness Control

The screen brightness is automatically adjusted depending on the ambient light. The brightness is increased in light for better visibility, while it is decreased in darkness for efficient power management.

Auto Brightness

Outstanding Visibility with Reliable Performance

XF Series

Product Reliability

High Operating Temperature

The XE Series durable enough is able to operate in a wide range of temperatures.

Conformal Coating

Often products can be exposed to dust and water even during maintenance activities. Conformal coating on every major circuit board eliminates such troubles by protecting it against dust, iron powder, humidity, etc.

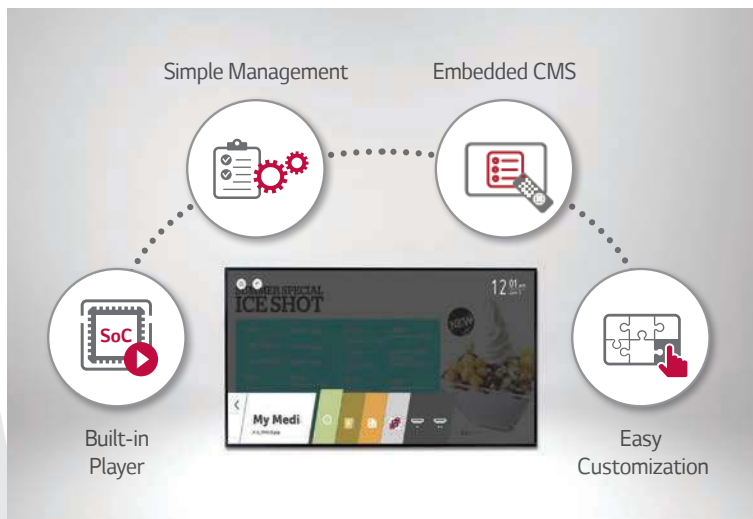

Outstanding Visibility with Reliable Performance

XF Series

Easy Maintenance

webOS Smart Platform

Quad Core SoC (System-on-Chip) can execute several tasks at the same time without a separate media player. In addition, webOS 3.0 platform enhances user convenience with intuitive UI and simple app development tools.

Slim Design

Thanks to its thin depth, the XF series takes up less space and leads to ease of installation for various applications.
