

24" Series 9 Contemporary Self-Cleaning Oven

Series 9 | Contemporary

With beautiful contemporary styling, advanced cook functions and touchscreen, this built-in oven is a highlight of our collection.

- Guided cooking using your touchscreen makes it simple to cook by food, function or recipe
- 3 cu ft total capacity, with 16 oven functions including Pastry Bake and Roast, Air Fry and Dehydrate
- Moisture control and even heat distribution thanks to ActiveVent™ and AeroTech technology
- Non-tip, full extension sliding shelves for safe removal of hot dishes

DIMENSIONS

Height	23 9/16 "
Width	23 7/16 "
Depth	22 1/4 "

FEATURES & BENEFITS

Cook With Confidence

Our touchscreen interface provides an intuitive guided cooking experience that helps deliver perfect results, whether you've been cooking all your life or just starting out. Cook with a favorite method, a hero ingredient, or a go-to cooking function or recipe.

Generous Capacity

With its market-leading 3 cu ft total capacity, you can create several perfectly cooked dishes at once using multiple shelves.

Multi-Function Flexibility

The cooking functions have each been tailored, tested, tweaked and perfected to ensure that no matter what you're cooking, you've got the right heat to match. Purchase our Wireless Temperature Sensor accessory and precisely monitor cooking in real time (accessory sold separately).

Exceptional performance

Our unique cooking technologies were developed to deliver perfect results. ActiveVent ensures optimised moisture levels, while AeroTech™ circulates heat evenly for a consistent temperature.

Self-Cleaning

Our self-clean technology breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth. The enamel coated side racks don't need to be removed when using this function.

Design Freedom

Available in an elegant black or a stylish black with stainless steel, this oven is designed to fit seamlessly into your kitchen. Premium materials and detailing to support a cohesive, considered kitchen design.

SPECIFICATIONS

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
