DIMENSION / CLEARANCES

DIMENSIONS	
Product (WxHxD)	27" x 39" x 33 1/8"
Depth with Door Open	57 3/4"
Carton Dimensions (WxHxD)	29 1/8" x 41 7/8" x 33 3/8"
Approx. Weight (Product / Carton)	203.9 lbs / 224.9 lbs
A	57 3/4" (146.6cm)
B	33 1/8" (84cm)
C	4" (10cm)
D	1" (2.5cm)
E	27" (70cm)
F	1/4" (0.5cm)

DIMENSION / CLEARANCES

To ensure sufficient clearance for water inlet hoses, drain hose and airflow, allow minimum clearances of at least 1" (2.5 cm) at the sides and 4" (10 cm) behind the appliance. Be sure to allow for wall, door, or floor moldings that may increase the required clearances.

Stacking or Pedestal Installation

The washer can be stacked under a dryer or on top of a pedestal or pedestal washer.

- Refer to the instructions packaged with the optional pedestal kit before stacking appliance on pedestal.
- Do not use a drain pan with a pedestal or pedestal washer installation as it can block the drawer. Using a drain pan may result in increased vibration and noise during operation.

DIMENSIONS	
A	33 1/8" (84cm)
B	4" (10cm)
C	1" (2.5cm)
D	27" (70cm)
E	77 1/2" (196.8cm)
F	1/4" (0.5cm)

CONNECTING THE WATER INLET HOSE

- Check the fittings and seals. Inspect the threaded fitting on each hose and make sure there is a rubber seal ❶ in place in both ends of each hose to prevent leaking.
- Connect the water inlet hoses to the hot and cold water faucets tightly by hand and then tighten another 2/3 turn with pliers.
- Connect the blue hose to the cold water faucet and the red hose to the hot water faucet.

Flush out the inlet hoses.

- After the hoses are connected, turn on the water faucets and flush out any foreign substances such as dirt, sand, or sawdust. Foreign substances can damage washer inlets and lead to leakage.
- Let the water drain into a bucket, and check the water temperature to make sure you've connected the hoses to the correct faucets.

Attach the inlet hoses to the back of the washer.

- Attach the hot water inlet hose to the hot water inlet on the back of the washer. Attach the cold water inlet hose to the cold water inlet on the back of the washer.
- Tighten the fittings securely. Turn on both faucets all the way and check for leaks at both ends of the hoses.
