## GE 36" Built-In Knob Control Electric Cooktop

### DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

**IMPORTANT:** Requires a 5" free area between the bottom of the cooktop to any combustible material, i.e., shelving. Free area not required when installing wall oven underneath cooktop. Refer to installation instructions. Requires a 15" minimum from cooktop to adjacent overhead cabinets. Units are furnished with a 48" flexible armored cable.

**NOTE:** 36" Ribbon cooktops are approved for use over select GE 30" Single Wall Ovens and Warming Drawers. Refer to cooktop and wall oven/warming drawer installation instructions packed with product for current dimensional data. If installed with a GE Telescopic Downdraft System, consult both the cooktop and downdraft installation instructions packed with product before installing. Cooktop gas/electric supply may need to be re-routed to install downdraft. The countertop cutout requires 23-1/2" minimum flat countertop surface and 25" minimum total countertop depth. In addition, other clearances to front edge of the countertop must be considered.

**Before installing, consult installation instructions packed with product for current dimensional data.**

#### APPROXIMATE COOKING DIMENSIONS

To insure accuracy, it is best to make a template when cutting the opening in the counter

#### INSTALLATION ABOVE A WALL OVEN

|                                     |           |           |
|-------------------------------------|-----------|-----------|
| <b>VOLTAGE (60HZ AC)</b>            | 240V      | 208V      |
