 - Auto re-ignition means if the flame goes out it will automatically re-light for safety

DIMENSIONS

Height	2 5/16 "
Width	35 7/16 "

Depth	20 7/8 "
-------	----------

FEATURES & BENEFITS

- Easy Handling**
With flat cast iron grates, pots and pans can easily be slid across elements, coming in handy in busy cooking environments.
- Safe And Sound**
The Auto-reignite system means you don't have to hold down a dial while burners ignite - if a burner goes out it is automatically relit at the original flame setting.
- Complementary Design**
The brushed stainless steel and polished metal trim has been designed for durability but also provides a modern, stylish finish, matching the Fisher & Paykel family of kitchen appliances.
- Easy Cleaning**
The stainless steel component is easily accessible and quick to clean. Cast iron trivets provide a durable and stable cooking platform. Their rubber feet prevent them from scratching the cooktop.
- Handy Accessories**
This cooktop comes with a small pan support and wok stand to complement different cooking styles.

- Precise Control**
Simply turn the dials to ignite the flame quickly and safety. Innovalve™ technology allows you to adjust the flame with 180° gas valve rotation for super accurate temperature control.

SPECIFICATIONS

Accessories (included)	
Small pan support	•
Wok stand	true

Burner ratings	
Auxiliary burner (LPG)	700 - 3500BTU
Maximum burner power	Yes
Rapid burner (LPG)	1900 - 11500BTU

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
