

New York Department of Conservation (DEC) regulations on Hydrofluorocarbons (HFCs), 6 NYCRR Part 494, Hydrofluorocarbon Standards and Reporting: This product contains regulated substances that are not of reclaim origin. Only refrigerants that are in compliance with DEC regulations may be used in the State of New York. The serial tag for this product, which can be found on the front panel of the product, has information about the type and amount of refrigerant used, and the year of manufacture.

I certify under penalty of law that the statements and information submitted in this document are to the best of my knowledge and belief true, accurate, and complete.
