

ECONOMY & INVENT™ REPLACEMENT GRILLES

SPECIALTY VENTILATION

Fast and Easy Installation

- Installation can be completed in 5 minutes or less thanks to backwards compatible grille springs.
- No wiring is required and the grille is sized just right to conveniently cover existing dry wall cuts for an easy, no cut install

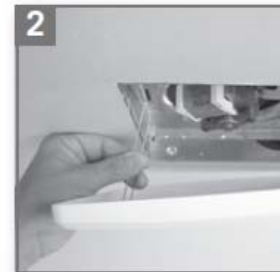

5MIN
INSTALL

NO CUTTING
NO WIRING

1 Pull old grille away from ceiling.

2 Squeeze grille springs and remove old grille.

3 Squeeze grille springs, insert springs into fan slots and push new grille up against ceiling.
