

Series 11, Professional Tall Double DishDrawer Dishwasher

Series 11 | Professional

Boasting bold Professional styling including a stainless steel interior, each drawer operates independently, for flexible washing

- Eight wash cycles from Heavy to Light, including Auto, 60min and Glassware
- Tall top drawer fits full-size dinner plates up to 12 1/4 inches, with flexible racking for large cookware
- Wi-Fi capability and a SmartHQ™ app for remote control and notifications

DIMENSIONS

Height	34 - 36 3/8 "
Width	23 9/16 "
Depth	22 9/16 "

FEATURES & BENEFITS

- Ease Of Use**

DishDrawer™ Dishwashers are beautiful to use with soft-close drawers. The tall top drawer fits your larger plates and dishes up to 12 1/4 inches, while the bottom drawer is ideal for small washes. Flexible racking includes height-adjustable cup racks and wine glass supports.
- Design Quality**

Every detail has been carefully crafted using quality materials, from the easy-to-clean stainless steel interior to the spray arm sensor that detects jams for increased wash confidence.

- Complementary Design**

With distinctive, bold styling, this DishDrawer™ Dishwasher is designed to match the Fisher & Paykel Professional style family of appliances.
- True Half Load**

Both drawers fit a true half load. Each drawer operates independently, so you can wash one load while stacking the other drawer, or wash simultaneously on separate cycles.
- Flexible Wash Options**

Eight wash programs including Auto, 60min and Glassware, while modifiers such as Sanitize, Dry+ and Quiet provide added wash flexibility. The Quiet wash modifier reduces the noise on some cycles while maintaining performance – perfect for late night washing.
- Efficient performance**

With a Energy Star Most Efficient rating, this DishDrawer™ Dishwasher is recognised amongst the most energy efficient models on the market.

SPECIFICATIONS

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
