Over-the-range microwave oven quick pitch

Reinventing the original

Advanced performance

Rely on the GE CircuWave™ 1100 system to assure delicious, consistent cooking results time after time.

Distinguished appearance

Clean and contemporary, the new design has softer edges and curved surfaces to complement any kitchen.

Remarkable versatility

Heat one, two or even three casserole dishes at the same time. The two included racks snap into place to create three levels of cooking.

Amazingly easy to use

The two-line bilingual scrolling display provides large, easy-to-read cooking tips in both English and Spanish. Simple one-touch controls allow quicker, easier cooking and reheating of a variety of foods.

What's new: GE® over-the-range microwave ovens

Reinventing the original—with more stainless than ever

Distinctive style

- To complement its role in today's busy lifestyle, GE has given the microwave an exciting new look for your kitchen.
- The new GE look is more sophisticated, with added curves and clean lines that work beautifully to complement any kitchen design.

Architectural elements

- The microwave handle has been redesigned to complement the sleeker lines of today's appliances.
- The elegantly arched hearth window coordinates beautifully with GE ranges, as well as other brands.

More stainless

- The enhanced stainless steel design offers an incredibly distinctive appearance.
- The new full-width hidden vent enhances the curves and style of the overall design.

Inside story: GE® over-the-range microwave ovens

JVM1850DMWW shown

Capacity and wattage

Up to 1.8 cu. ft. capacity and 1100 microwave watts.

Multi-level cooking

Two removable, full-width oven racks permit 3 full levels of cooking.

14-1/4" recessed turntable with on/off

Makes the most of the cooking capacity, while adding on/off flexibility for using oval and rectangular dishes.

CircuWave™ 1100 system

Assures consistent results, with a rotating stirrer and turntable that evenly distribute the 1100 watts throughout the oven cavity.

Sensor microwave oven

Uses built-in sensors to automatically set power and time based on food moisture levels.

Halogen interior lighting

Helps you easily monitor food as it cooks.

A whole new Spacemaker® microwave oven

Since the introduction of the Spacemaker oven in 1979, GE has led the way in microwave innovation. Then, the Spacemaker offered a convenient, kitchen-friendly option for making snacks and reheating leftovers. Today's Spacemaker allows even cooking and defrosting of all types of foods, marking a dramatic departure from the original.

Dare to compare: Appearance

Curved design

GE's clean lines and curved appearance with hearth window gives GE a distinctive and sophisticated appearance. Unlike the box-shaped look of the competition, it's the perfect complement to the kitchen.

More stainless steel

GE® offers a sleek, full-width hidden vent and designer stainless-appearence handle that provides the high-end look consumers love.

Ventilation options

The Spacemaker® convection/microwave and Spacemaker microwave ovens are designed for adaptation to the following three types of ventilation:

Outside exhaust (Vertical)

Outside exhaust (Horizontal)

Recirculating (Non-vented ductless—see Filter Kit Drawing, order JX81A, JX81B, JX81D, JX81H or JX81J)

Requires 120V grounded outlet. Electrical receptacle must be located in cabinet above Spacemaker microwave/convection and Spacemaker microwave ovens. No additional wiring, venting or cabinet rebuilding necessary in many cases. Complete detailed, easy-to-follow installation instructions and convenient full-size templates are packed with product.

Important: When installing these ovens over a range, allow minimum of 2" from bottom of microwave oven to top of range backguard to allow for removal of light covers.

Optional accessories (Available at additional cost)

Filler panel kit

See below for part numbers.

When replacing a 36" range hood, this kit fills in the additional width to provide a custom built-in appearance. For installation between cabinets only; not for end-of-cabinet installation.

Each kit contains two 3"-wide filler panels.

Recirculating Charcoal Filter kit

See below for part numbers.

To be used when the Spacemaker microwave oven cannot be vented to the outside. (Included with non-vented models.)
