MAT20 Top-Load Washer

WHAT'S INSIDE MATTERS®

POWERFUL DRIVE SYSTEM

The Drive System features an enhanced design that delivers reliability and consistency, wash after wash.

1

STAINLESS-STEEL WASH SHAFT

The 100% 416-grade stainless-steel wash shaft is built to endure heavy use and protect against bleach vapor and environmental corrosion.

2

TRIPLE-LIP SEAL WITH GARTER SPRING

Provides a more effective seal. Flexible and watertight, it protects the shaft and bearings from moisture.

3

QUAD-GEAR TRANSMISSION

Robust design delivers the torque necessary to turn heavy loads, resulting in outstanding wash performance.

4

1/2-HP PSC MOTOR

The powerful 1/2-HP PSC motor alternates between long and short strokes to generate extensive deep-cleaning action that gives clothes a thorough wash.

5

PREMIUM BEARINGS

Sealed for an added layer of protection, the premium bearings enhance the machine's durability.
