

ABOD6

32.5" x 23.38" x 24.38" (H x W x D)

Performance Series BOD refrigerated incubator with 6 cu.ft. capacity

Highlights:

- BOD refrigerated/heated incubator for water treatment storage
- Intelligent microprocessor digital temperature controller
- Improved temperature accuracy with a separate temperature probe for continuous product readout to simulate stored product temperature

Product Features:

| | |
|--|--|
| BOD Refrigerated/Heated Incubator | Designed to store water samples under reliable temperature conditions for optimum research results |
| Purpose-built design | Constructed and featured for the storage of water samples |
| Pre-set to 20°C | Ideal temperature for bottle incubation |
| +/-1°C Variation | The published temperature variation is derived from the maximum deviation of an NTC sensor in a 1 oz. vial located nearest the chamber geometric center during a 24 hour test period |
| Large capacity | 6 cu.ft. interior can hold up to 90 300ml incubator glass bottles (note: bottle capacity varies by exact bottle design and size) |
| Antimicrobial silver ion-coated handle | Powder-coated handle with naturally occurring silver ions to help reduce the spread of germs |
| Adjustable temperature | Intuitive controls let you adjust the interior temperature between +4 to +60°C |
| Temperature alarm | Visual and audible alarms alert if the interior temperature rises or falls out of set range |
| Remote alarm contacts | Electronic controller is equipped with a volt-free contact for alarm forwarding to an external remote system (contacts located in the external rear of the unit) |
