- · Brushed metal handles
- · Bottom freezer drawer

# **DIMENSIONS**

Height 70 3/4 "

Width 35 7/16 "

Depth 27 3/8 "

### **FEATURES & BENEFITS**

## ACTIVESMART™ FOODCARE

ActiveSmart™ Foodcare learns how you live. It's the technology that understands how you use your fridge and adjusts the temperature, airflow and humidity inside to help keep food fresher for longer.

#### Clever Energy

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means your refrigerator uses the energy it needs without compromising on food care.

## **Easy Cleaning**

Spill-safe secure glass shelves easily capture any drips or leaks and prevent them from falling on items below.

#### **Humidity Control**

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

#### Simple Storage

This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

### **SPECIFICATIONS**

#### Capacity

Total gross capacity	20.1 L
Total gross capacity	20.1 cu ft
Volume freezer	5.5 cu ft
Volume refrigerator	14.6 cu ft

#### Consumption

Energy rating	Energy Star
Energy usage	448kWh/year
In-use energy carbon emissions estimate	158.0kgCO2e/year

#### **Features**

Adjustable door shelves	ε
Adjustable glass shelves	3
Covered door shelves	2
Deli storage bins	2

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
