Unpacking & Testing Appliance

Carefully remove the appliance from the box. Prior to installing the appliance, remove all packaging material and test to make sure the appliance operates properly by plugging the power supply cord into a conveniently located 120V, 15 Amp minimum grounded outlet.

Minimum Mantel Clearances

! WARNING

- When using paint or lacquer to finish the mantel, the paint or lacquer must be heat resistant to prevent discolouration.

Déballage & Vérification d'Appareil

Retirez soigneusement l'appareil de la boîte et retirez les supports. Avant d'installer l'appareil, retirez tous les matériaux d'emballage et vérifiez que l'appareil fonctionne correctement en branchant le cordon d'alimentation dans une prise de terre minimale de 120V, 15 ampères, mise à la terre.

Dégagements Minimaux à la Tablette

⚠ AVERTISSEMENT

- Lorsque vous utilisez de la peinture ou de la laque pour finir la tablette, la peinture ou la laque doit être résistante à la chaleur pour éviter la décoloration.
