

Handle Installation Instructions for FFBF279SSX-H72 Series

This attachment to your appliance will further customize your unit to your liking and will allow for an easier way of opening the unit's doors.

MATERIALS PROVIDED:

- (2) Stainless steel handles
- (4) Pre-installed screws inside the door

TOOLS NEEDED:

- Phillips Screwdriver

INSTRUCTIONS:

1. Gather all materials.
2. Carefully peel back the gasket around the unit's top door to expose the screws already installed in the unit.
3. On the other side of the door, line up the handle with the screws.
4. Using the screwdriver, screw in the handle until it is secure in the door.
5. Carefully reinstall the gasket around the door.
6. Repeat for the lower freezer door.
