## FEATURES & BENEFITS

**Simple Design**  
The new stainless steel range hood is tough and hardworking with a style and simplicity to fit seamlessly into your kitchen.

**Edge To Edge Filters**  
We've improved our filters to capture and extract more cooking steam, odors and grease.

**Precise Control**  
The Professional Range Hood has been designed to give you better control with sturdy stainless steel dials to set your desired fan speed and light level.

**Effective Extraction**

Our Range Hood filters have been improved to capture more cooking steam, odors and grease. They're easy to remove and clean - simply put them in your DishDrawer™ dishwasher.

**Heat Lamp**  
Accessorize your kitchen and cook like a pro by adding our contemporary heat lamps to your 36" or 48" range hood.

**Your Kitchen, Your Style**  
Enhance your culinary experience in the kitchen with our Range Hood accessories from heat lamps through to duct covers. Choose a range hood to fit your kitchen - there are three different sizes. For the 36" models, your range hood can come with one or two blowers to give you up to 1200CFM of extraction airflow.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
