INTEGRATED TALL DOUBLE DISHDRAWER™

PLANNING GUIDE

SERIES 11 | DD24DTX6I1 | DD24DTX6HI1

INTRODUCTION

This comprehensive planning guide provides you with the framework and tools to achieve your desired design outcome with Fisher & Paykel appliances. In this guide, you will find a range of conceptual, detailed, and dimensional product information to bring your ideas to life and create spaces that truly reflect your vision.

SUPPORT

For additional design planning and installation support please contact the Fisher & Paykel design support team.

SPECIFICATION GUIDE

OVERVIEW

Install your DishDrawer™ Dishwasher into an existing kitchen space or integrate into kitchen cabinetry. The touch-sensitive control panel is located inside this Integrated model, leaving an uninterrupted exterior that blends seamlessly with surrounding cabinetry.

PRODUCTS

DD24DTX6I1

Integrated Dishdrawer™, 24" wide

DD24DTX6HI1

Integrated Dishdrawer™ with water softener, 24" wide

ACCESSORIES

PRE-FINISHED PANEL ADDD24DTPX

Brushed stainless steel pre-finished panels

PRE-FINISHED PANEL - RECESSED HANDLE

Black black glass panels ADDD24DTZB Stainless steel panels ADDD24DTNX

HANDLES

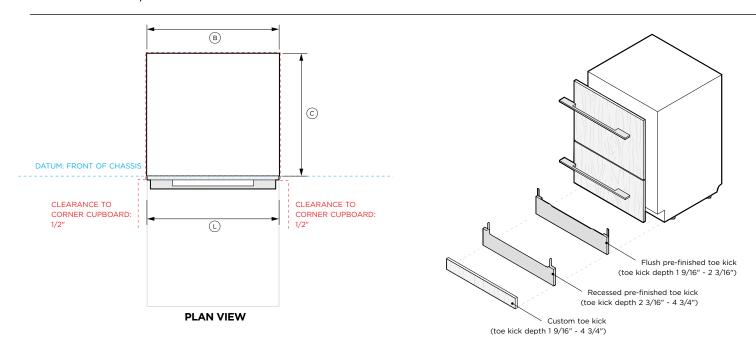

Handles are available for the Dishdrawer™ including Contemporary, Professional, and Classic styles. Options include brushed aluminium, black, and stainless steel finishes. Two handle kits are required for double drawer models.

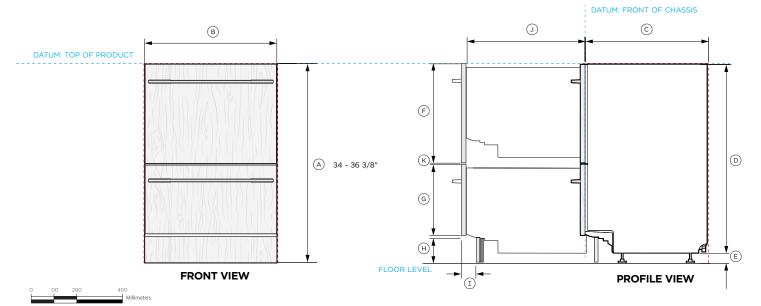

FEATURES

- ① Eight wash programs including Auto, 60min and Glassware, while modifiers such as Sanitize, Dry+ and Quiet provide added wash flexibility. The Quiet wash modifier reduces the noise on some cycles while maintaining performance perfect for late night washing.
- ② Tall top drawer fits full-size dinner plates up to 12 3/16", with flexible racking for large cookware.
- ③ Wi-Fi capability and a SmartHQ™ app to see cycle status and notifications.
- ④ Both drawers fit a true half load. Each drawer operates independently, so you can wash one load while stacking the other drawer, or wash simultaneously on separate cycles
- ⑤ For ease-of-use, these DishDrawer™ Dishwashers have a knock to pause function. A knock on the front panel will pause the dishwasher, which can be restarted by using the start button.

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

PLANNING CONSIDERATIONS

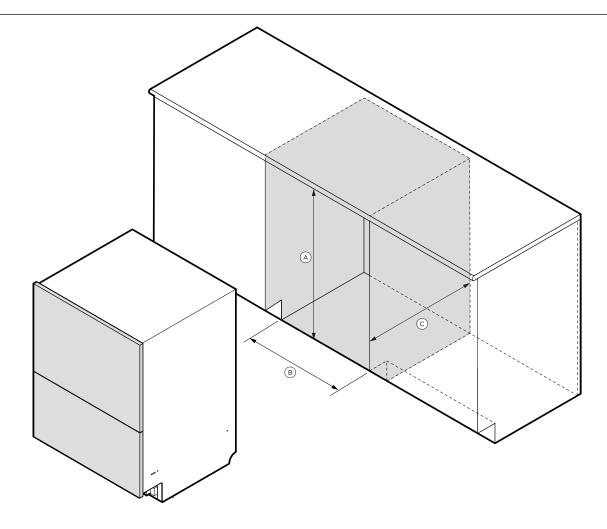

PLANNING CONSIDERATIONS | CAVITY SPECIFICATIONS

CAVITY SPECIFICATIONS

The cavity height will vary according to your cabinetry design.

Cavity Dimensions		in	mm
<u>A</u>	Cavity height*	34 1/4-36 1/2	869-927
B	Minimum cavity width	23 5/8	600
©	Minimum cavity depth**	22 3/4	578

^{*}Cavity height depends on adjustment of levelling feet.

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

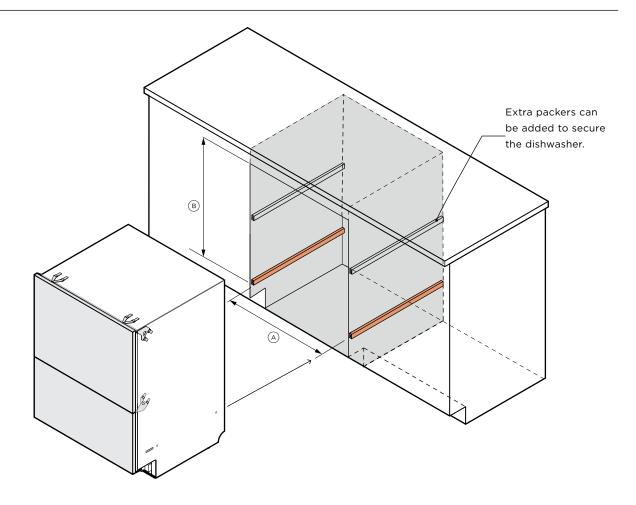

^{**}Ensure there are no obstructions in the cavity if minimum cavity depth, width or height are specified.

CAVITY PACKING PLACEMENT

The dishwasher must be secured through chassis and into the cabinet sides. If the cavity is over width, packers must be installed to avoid bowing the chassis.

Side and top brackets may be installed and fixed to the edge of the cabinet.

Dir	nensions	in	mm
(A)	Width between packers	23 5/8	600
В	Center of fixing points from top of chassis	25 3/16	640

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

PLANNING CONSIDERATIONS | CUSTOM PANEL SPECIFICATIONS

CUSTOM PANEL SPECIFICATIONS

Ensure that there are no obstructions under the counter top if the dishwasher is installed directly below.

mm	mm
34 1/4-36 1/2	869-927
23 1/2	596
17 3/8	442
1/16	2
12 1/4	311
	50
5/16	8
	5/16

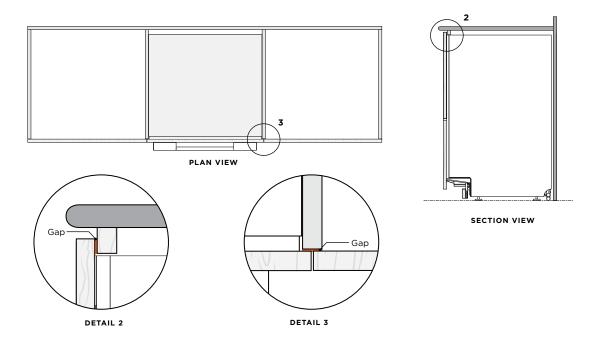

EXTENDING CUSTOM PANELS

Custom panels may need to extend to cover cabinet side walls or frames, or to create recessed handles.

Make sure the dishwasher drawer can always close securely against the seals on the chassis.

The dishwasher drawers must seal properly when closed to prevent humidity escape and condensation, which can damage the custom panel.

If the custom drawer panel contacts any cabinetry, the seal may be compromised, allowing humidity to escape and damage the drawer panels or cabinetry.

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available on our website fisherpaykel.com

CUSTOM DRAWER PANEL PREPARATION

PLANNING CONSIDERATIONS | CUSTOM PANEL DETAILS

CUSTOM PANEL SPECIFICATIONS

Panel width and height will vary according to your cabinet specifications.

Custom drawer panel and toe kicks should be manufactured and fitted by a cabinetmaker.

SERVICES

SERVICES | SERVICE OPTIONS

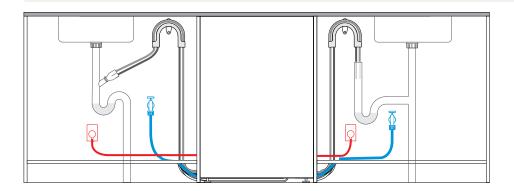

SERVICE REQUIREMENTS

The power cable must be routed through a service hole separate from the water and drainage.

The drain hose support should be placed as close to the underside of the counter top as possible.

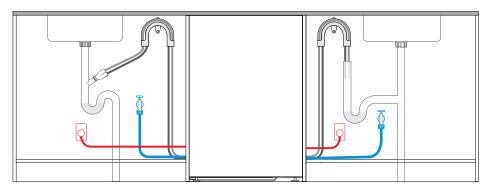

Drain hoses must be installed higher than standing water with an air gap between to avoid drainage issues. Hoses can be shortened to achieve the air gap.

Hoses must not extend into a standpipe more than 4 3/4". If the drain hoses supplied are not long enough, a Fisher & Paykel 11ft 8" (part number 525798). drain hose extension kit is available

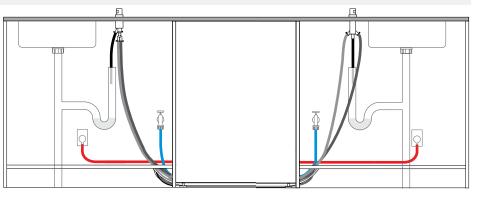

FRONT SECTION VIEW - SERVICES THROUGH TOE KICK

Water services can be routed left or right through the toe kick and into the adjacent cabinet. Drainage can be routed to a spigot or stand pipe. The power cable must be routed through a separate hole.

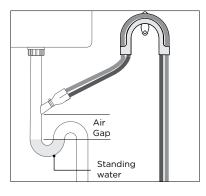

FRONT SECTION VIEW - SERVICES THROUGH CABINET SIDE

If routing directly through the cabinet side is necessary, ensure that the service hole is raised. There must be space behind the dishwasher for feeding hoses and cords.

SINGLE AIR GAP INSTALLATION

Drainage can be routed to a single air gap fitting. See the installation guide for details

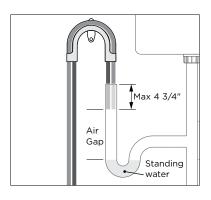

DETAIL VIEW - SPIGOT INSTALL

The spigot must be installed above the standing water with an air gap in between.

DUAL AIR GAP INSTALLATION

Drainage can be routed to a dual air gap fitting. See the installation guide for details

DETAIL VIEW - STAND PIPE INSTALL

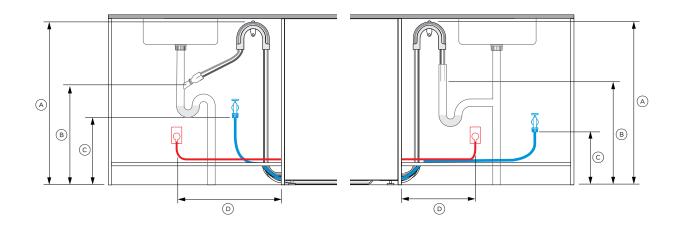

The dishwasher drain must be installed no more than $4\ 3/4"$ into the stand pipe.

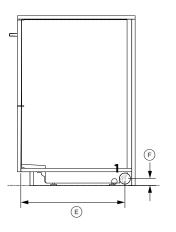

An air gap between drain ends and standing water is required.

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here.
