

PTD70GBSTWS/DG

GE Profile™ 7.4 cu. ft. Capacity Smart Aluminized Alloy Drum Gas Dryer with Sanitize Cycle and Sensor Dry

DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

EXHAUST OPTION: When viewed from the front of the unit, exhaust 3-way via rear, left and bottom. Dryer is shipped exhausted to the rear. Alternate exhausting knockouts are supplied.

GAS: An individual, properly-grounded branch circuit, with a three-prong grounding-type receptacle, protected by a 15 or 20 amp circuit breaker or a time-delay fuse is required.

GAS DRYER ELECTRIC RATING: 120V, 60Hz, 7A

GAS (BTU/HR): 22,000. Factory-equipped for natural gas. Tested for LP gas. LP gas supply requires a conversion kit. Check installation instructions for correct kit and have a qualified gas technician install a conversion kit. See dryer ducting information for proper installation.

NOTE: Dryer wall outlet must be located within 36" of service cord entry and accessible when dryer is mounted in position.

INSTALLATION INFORMATION: For complete information, see installation instructions packed with your dryer.

SPECIAL INSTALLATION REQUIREMENTS

ALCOVE OR CLOSET INSTALLATION:

- If your dryer is approved for installation in an alcove or closet, it will be stated on a label on the dryer back.
- The dryer **MUST** be exhausted to the outside.
- Minimum clearances between dryer cabinet and adjacent walls or other surfaces are: 0" both sides, 0" rear and 1" top.
- Closet doors must be louvered or otherwise ventilated and must contain a minimum of 60 sq. in. of open area equally distributed. If this closet contains both a washer and a dryer, doors must contain a minimum of 120 sq. in. of open area equally distributed.
- No other fuel-burning appliance shall be installed in the same closet with a gas dryer.

BATHROOM OR BEDROOM INSTALLATION:

- The dryer **MUST** be exhausted to the outdoors.
- The installation must conform with the local codes, or in the absence of local codes, with the National Electric Code and National Fuel Gas Code, ANSI Z223 for gas dryers.

MINIMUM CLEARANCES OTHER THAN ALCOVE OR CLOSET INSTALLATION:

- Minimum clearances to combustible surfaces are: 0" both sides; 1" rear

DRYER EXHAUSTING INFORMATION:

- Use metal duct only, vertical and horizontal ducting.

with Sanitize Cycle and Sensor Dry*

DUCTING MATERIALS:

EXHAUST LENGTH CALCULATION:

- Dryers must be exhausted to the outside.

Exhaust ducts should be terminated in a dampered wall cap to prevent back drafts, bird nesting, etc. The wall cap must also be located at least 12" above the ground or any other obstruction with the opening pointed down.

DRYER EXHAUSTING INFORMATION— USE METAL DUCT ONLY VERTICAL AND HORIZONTAL DUCTING

		BEST PERFORMANCE	
		Maximum length of 4" dia rigid metal duct	
		Exhaust hood type	
Number of 90° turns	A 4" opening	B 2-1/2" opening	
0	120 ft.	90 ft.	
1	100 ft.	75 ft.	
2	85 ft.	65 ft.	
3	70 ft.	55 ft.	
4	60 ft.	45 ft.	
5	55 ft.	35 ft.	

For every extra 90° elbow, reduce the allowable vent system length by 10 ft.
Two 45° elbows will be treated like one 90° elbow.
For the side exhaust installations, add one 90° elbow to the chart.
When calculating the total vent system length, you must add all the straight portions and elbows of the system (including the transition duct).

GE Profile™ 7.4 cu. ft. Capacity Smart Aluminized Alloy Drum Gas Dryer with Sanitize Cycle and Sensor Dry

FEATURES AND BENEFITS

Steam – Refresh small loads and dewrinkle larger loads with the power of steam.

Tangle Control – Intelligent technology adapts the drum movements to minimize tangled loads and provide even drying.

Washer Link – Wirelessly connects the washer to the dryer, enabling the dryer to automatically set the optimal settings based on the load that was just washed.

Reduce Static – Prevent static cling with a gentle mist near the end of the cycle.

Smart Features powered by SmartHQ™ – Ensure your dryer always has the latest features, including extra cycles for active wear and casuals. Plus, easily control and monitor your laundry from anywhere, receive remote status notifications and more.

Sensor Dry – Innovative dual thermistor technology continually monitors temperature and moisture to prevent over-drying and protect your laundry.

Sanitize Cycle – Reduces 99.8% of bacteria found in laundry.

Check Vent Notification – Receive a notification when the dryer vent needs to be cleaned, ensuring safe operation and optimal drying performance.

120 ft. Venting – Innovative 120 ft. venting enables optimal airflow, enhanced drying ability and flexible installation.

My Cycle – Streamline your laundry process by saving your favorite dryer settings for future use.

Quick Dry – Quickly dries a variety of loads for families on the go.

Damp Notification – Receive a notification when your laundry has reached the ideal dampness to remove from the dryer, so you get wrinkle-free results.

ENERGY STAR® qualified – Meets or exceeds federal guidelines for energy efficiency for year-round energy and money savings

Model PTD70GBSTWS – White with silver backslash

Model PTD70GBPTDG – Diamond Gray
