

testingHRTX20SS

5.5" x 20" x 20" (H x W x D)

20 inch wide under cabinet retractable range hood for ductless use in stainless steel, made in the USA

Highlights:

Designed and manufactured in the USA

Engineered specifically for recirculated (ductless) ventilation

Minimalist style with a retractable hood to match any kitchen

Product Features:

20" Wide Retractable Recirculating Range Hood	Low profile design to blend into your cabinetry when not in use
Premium design for luxury kitchens	Retractable filter blends in seamlessly with cabinetry when not in use for an elevated kitchen look
Designed for ductless operation	The industry's first range hood specifically made for efficient filtration in recirculating applications with no access to exterior vents
Made in the USA	Designed and manufactured in our own domestic facilities using American steel
Improved filtration with smoother airflow	Unique cross-flow fan moves up to 40% more air through the filters than standard hoods converted to recirculating mode
Angled airflow keeps smoke away from user	Vents are set at a slight upwards angle, ensuring smoke and odors won't be directed towards the user
Lasting durability with quality construction	Metal ball-bearing glides, innovative cross-flow fan, and steel materials to ensure efficient use for years of reliable ventilation
Two-speed fan for versatile ventilation	High and low setting to allow proper ventilation of your kitchen as needed
Two pre-installed LED light bulbs	Efficient and attractive illumination over your cooking surface

testingHRTX20SS Specifications:

Overview	
Height of Cabinet	5.5" (14 cm)
Width	20.0" (51 cm)
Depth	20.0" (51 cm)
US Electrical Safety	ETL
Canadian Electrical Safety	ETL-C
Amps	1.7
Voltage/Frequency	115 V AC/60 Hz
Weight	11.0 lbs. (5 kg)
Parts & Labor Warranty	1 Year
Range Hood	
Installation	Under Cabinet
Venting	Recirculating
Controls	Dial
Light	Yes
Number of Lights	2
Light Type	LED
Number of Fan Speeds	2
