NOTES

Please see **Installation Instructions** for detailed instructions and information

• Installation Space

This module can be installed beneath a countertop or can be free-standing

For a standard installation of stainless steel unit: The product must be installed so that the front face will project 1" forward of adjacent cabinets.

• For a flush installation of stainless steel unit: Install a 1 1/8" wide filler strip on the hinge side. The width of the opening must be 24 7/8" min. wide. See installation instructions for details.

• Location Requirements: All Monogram Refrigeration Modules may be closed in on the top and sides as long as the front is unobstructed for air circulation and door swing.

Do not install these products where the temperatures will go below 55°F (13 C) or above 90° F (32 C).

Products must operate from separate properly grounded receptacles. These products are not designed to be stacked one over the other.

See installation instructions for side-by-side information.
