

# 30" Series 9 Integrated Warming Drawer

Series 9 | Integrated

Keep plates warm until ready to serve; rapid proof or slow cook. Panel-ready, you can match it with your cabinetry.

- Integrate your warming drawer into your surrounding cabinetry for seamless design
- Space to keep 16 standard-sized place settings evenly warm, with accessory rack for optimising space
- Easy to clean smooth-glass base
- Six versatile tailored programmes for warming, proofing, dehydrating and slow cooking

## DIMENSIONS

Height	10 11/16 "
Width	28 7/16 "
Depth	22 3/16 "

## FEATURES & BENEFITS

### Complementary Design

Our Warming Drawer is panel ready with push-to-open, to blend seamlessly behind cabinetry.

### Multi-Function Flexibility

Choose from six tailored functions including Rapid Proof, Dehydrate and Slow Cook.

### Easy To Clean

Cleaning and care of the Warming Drawer is simple. After each use, just wipe out the smooth glass interior with a damp cloth.

### Easy To Use

Soft-close with capacitive touch controls, our Warming Drawer comes with an accessory rack for optimising space.

### Precise Control

With fast and even heating, our warming drawer is great for keeping food warm and low temperature cooking, as well as resting after a traditional roast in the oven and proofing dough.

### Safe And Sound

With Automatic switch-off and Delayed start functionality, our warming drawers help keep dishes warm until it is time to serve the main meal.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
