

It's What's Inside That Matters

England

Other Brands

- 1 Frame is made from 3/4" or 7/8" furniture grade plywood
- 2 Precision cut, fully Interlocked frame with guide notches for accurate assembly
- 3 Perpendicular joints are notched for increased overall frame strength
- 4 Frames reinforced with hardwood on stress points
- 5 Back springs provide extra support for additional comfort
- 6 Spring spacing set closer together. Ends double sprung for added durability

- 1 Frame is made with 5/8" construction grade oriented strand board
- 2 Manually cut without guide notches leaving room for assembly error
- 3 Joints butted together compromises frame construction
- 4 Limited hardwood reinforcement
- 5 Webbing straps offering limited flexibility and comfort
- 6 Springs spaced further apart. Ends not double sprung

England frames have 20% more wood content and higher grade lumber than many of its competitors
