# *all things* SMALL

Bigger may be better, but smaller can be... absolutely PERFECT! Welcome to All Things Small, where great design takes on a more "petite" scale. Here, you'll find a resource for hard-to-find, smaller pieces to fill those hard-to-fit spaces in your home (you know where they are!) Imagine a hall chest that's less than a foot deep, ideal for a space-saving snuggle into a corner or against a wall. **That's You're So Shallow**, which combines generous campaign-style storage with a slender 9" profile.

Need a little extra pull in the bedroom? **Get A Handle On It** gives you a tall, nine-drawer chest that's a great home for jewelry or garments. You'll never be **Be Trayed** by a table with multiple levels that can hold anything from TV remotes to magazines. And with its polished chrome base, the **Cross Your Legs** bunching table lets you add a small-but-spectacular surface near a favorite chair, or a grouping in front of your sofa.

And speaking of stunning, **Itsy Bitsy** has a small dilemma. Is it a table? A pedestal? Or an object d'art? You decide, knowing that its black crackle finish will make a big impression however it's used!

**THE NEW BIG?**

*The only thing  
small about  
these pieces is  
their size!*

The **XOXO** table wants to deliver a small hug to any room in your home. With its metal bamboo legs and aged, white marble top, it provides a waterproof surface that's ideal for bath, kitchen or any room. And in keeping with its namesake, the more, the merrier! Consider a pair – or more – to display plants, stack towels, or as a resting place for your morning cup of coffee.

### Where are My Keys?

Hopefully they're on top of the distressed white chest. Or on one of the shelves behind the swing-out doors. Or in one of the spacious center drawers. With so many options, your keys may find themselves in the living room, hall, bedroom or master bath. That is, if they're not in your pocket.

At first glance, **Hidden Agenda** appears to be a simple solution for a small kitchen or bedroom. But with a back panel that swings into action as a desk or tabletop, you'll see that the space-saving applications are unlimited!

And with your outgoing personality, you'll look very comfy in the rich, contrasting tones of your **Social Butterfly** chair.

# CONTEMPORARY

## WHAT'S YOUR *Style?*

Style is such a personal thing. It can revolve around shapes and sizes, colors and textures, simplicity and complexity. It can also reflect a preference for masculine or feminine, romantic or practical, understated or obvious. Which style are you? Let's find out...

# TRADITIONAL

Perhaps you like a style that's forward thinking and cutting edge, with ultra sophisticated lines and designs. With the **Star Light, Star Bright** bed as your starting point, you might choose **Glam** as the companion nightstand. Add **Dressed to a T** for generous closed storage, and you're staying true to a look that's sleek and sensual. Show some heart by including the graceful **Love Knot** mirror. Now top things off with a soft, fur rug and bright white linens. Welcome to a soft contemporary room that wraps you in elegance, perfect for your feminine sensibilities!

On the other hand, you may like a style that pushes traditional thinking into a more up-to-date expression. In that case, you'd be drawn to **Space for 2** as a bedside partner that offers two full-size drawers and a handy pullout shelf. **Dress Her** closed storage is a handsome way to continue your theme of darker wood veneers and rich, brass accents. A textural, chocolate rug maintains a masculine foundation, while a dark fur throw adds visual weight to the bed. As a final touch, add a **Looking Glass** mirror to catch the light. Outstanding! You've created a room with a conservative approach... and a new traditional attitude!

Contemporary is a less-is-more  
philosophy, except  
when it comes to style.

A

It's all about knowing how to **Make An Entrance**. This closed storage piece can either stand out and make a statement, or blend beautifully into any room. It can assume any style you pursue, from deco to retro, urban to clean contemporary. Think of it as your favorite piece of jewelry; an elegant bauble that adds a soft sparkle to other silver and gold accessories in the room.

If you lean toward sweeping curves and graceful lines, you'll have an immediate attraction to **Cover Shot**. Impressive in its proportions and tailoring, it's a sofa that will elevate the stature of the room. Place an **It's Hip to be Square** table at one arm, being careful not to hide those shapely, silver legs. Then go curve-for-curve with the **Roundabout** coffee table to create a gorgeous setting!

Style is about expressing yourself, and Caracole pieces speak volumes about their owners. For instance, our **Smoke and Mirrors** console reflects your taste for the unique by combining imported Italian mirrors, decorative metal mullions and a wonderful walnut case. And the sturdy, all-metal base speaks to your conviction that strength can – and should – be beautiful.

# new TRADITIONAL

We couldn't resist! We've expanded the category to include new twists on traditional shapes and materials. With its scalloped front and brass detailing, **Dress Her** could be the centerpiece of any room. Or take a more relaxed approach with the **Brass Axis** cocktail – a perfect solution for informal gatherings. The **Mod-Urn** table reinterprets a classic shape in a contemporarized form. And for your softer side, consider the luxurious **Tuft Luck** sofa. Because great style will always be a tradition worth celebrating!

ARE YOU  
ECLECTIC

or *Formal*

Eclectic doesn't mean you're indecisive. It means you like to mix it up! And if you've fallen in love with **It's Got Legs**, your adventure has begun! With its rustic, rippled top and contemporary legs, you're already mixing metaphors. Keep everyone guessing by anchoring your eclectic interior with **Smoke and Mirrors** for closed storage. The blend of materials is bold – and the effect is exciting! The **Armed For Comfort** dining chair is a well-coordinated companion that adds softness and comfort to the wood, mirror and metal in the room.

By the same token, formal doesn't mean you like to put on airs. It means you like a look that's stately, orderly and sophisticated. For seating we'll happily choose a **Barrel Of Fun**, with its upscale sloop arm design and silver-capped legs. Now for something substantial, like our versatile **Rive Gauche** closed storage. Such authority! Finally, hang **Mirror Mirror On The Wall** horizontally for sparkle and shine that will highlight your beautiful crystal. There! Your room is formal, friendly and full of personality... just like you!

Ah, the Demilune! It's one of civilization's most amazingly adaptable pieces of furniture, and – wouldn't you know it – we have the French to thank!

“A few basic pieces. Endless possibilities.  
All of them exceptional!”

Our lovely and talented **Demi** stands alone, beautifully. She's very fitting in tight spaces, thanks to her half-circle shape. And she plays well with others (especially in pairs) whether flanking a doorway, or back-to-back as a table for bridge or for the children at Thanksgiving dinner. Be sure to invite the always-welcome **Party Chair** to keep things lively!

**More** appears to be a normal table, but it'll grow on you. It's a fitting solution for condo or townhouse, especially when **It's A Cover Up** comes along to provide elegant seating. Drop in an expansion leaf or two, and you're ready for your next big family reunion.

For holidays and large dinner parties, place a **Demi** on each end of your **More** table, and you've created a well-rounded table that shrinks or expands as needed. Add a **First Play Chair** for each guest on the list, and you're all set.

2 Demi + 1 More = Dining For 2, 4, 6, 8, 10 or 12!

# CASUAL

Some of us are just naturally drawn to the outdoors. That's why we've created a casual look that combines environmental materials with a fresh mix of durable woods and a broad range of delightful finishes. The result? Relaxed pieces that move easily from an upscale urban loft to a coastal retreat... with countless interpretations along the way!

When **You've Got Flair**, you have a versatile table crafted from ironwood. With a plank top and curving base, it's ready to add a natural vibe to any room in your home. If you prefer your flair with an eastern accent, **Bambu For U** makes a great case with large bamboo drawers on a metal base, and dramatic, oversized pulls. On the dark side, the **Double Vision** cocktail table puts a walnut top on two very solid elm bases.

As if by magic, **Voila** can transform a room by the sheer presence of its comfortable European styling and precise tailoring. Our **Hi-Ho-Hi** bar stool has an upholstered seat and backrest that swivels for easy access – and to show off the “cheerios” design on the back. And who wouldn't enjoy a **Pillow Fight** as part of their relaxation therapy? Stretch out between those flared arms, and discover its restorative power!

# TO MATCH

To match, or not to match: that's the question! If you begin with a bed that's **Large As Life**, it's easy to let that piece set the standard. Continue the refreshing, light ale ironwood finish with **Bedrock** in a nightstand position. And for closed storage, it's an **Open & Closed Case** featuring workable shuttered doors that allow you to utilize this piece as a dresser or entertainment center. With matching pieces, you've created a bedroom with a soothing, subtle feel.

But if that look doesn't quite "suite" you, then mix up your categories and colors! Changing to a mahogany table with open shelves takes you right to **The Bottom Line**. Keep up the contrast and you'll soon be In **The Black**, with its Asian influence and dark faux finish. By adding different materials and woods, you're adding excitement and interest to the bedroom!

Functionality with flair. That's **The Long And Short Of It**. With leaves up, you have a table surface that's long on space for projects – or for buffet-style serving. When your guests depart, put the leaves down and it becomes a compact desk or sofa table.

And since dinner is a time for catching up on events of the day, start the conversation with **Take It Or Leaf It**. The look is architectural, crafted in elm with clean lines, rounded corners and bronze-capped feet. Pair the light-finish table with a dramatic black crackle chair, and your dinner companions will be completely **Bamboozled** in the nicest way. They'll enjoy the sumptuous chocolate leather seats with bamboo-motif legs and nail head trim on all sides. Finally, stay on-topic by discussing the possibilities of the striking and storage-spacious **Bambu For U**.

The beauty of casual design  
is that it comes  
together so naturally

# UPHOLSTERY

Caracole upholstery is defined by style that's both sophisticated and relaxed. The fabrics are fashion-forward. The seat construction is eight-way hand-tied. And the look never fails to garner an admiring oooh and aaah.

Such admiration often leads to **Hugs And Kisses**, and it's nice to find a versatile sofa that enjoys a bit of romance. Named for the carved XOXO theme that accents the pierced bottom rail, it's hard not to love the distinctive flared arms and tufted back. Notice the thin band of wood trim that wraps around the top of the arm and curves down the back. Nickel ferrels on each foot add to the attraction. And see how a few well-chosen pillows add to the soft, sensual mood. Can love at first sight happen with a sofa? If so, your secret's safe. We'd never kiss and tell!

B. X MARKS THE SPOT  
tra-sidtab-004

Did you know the word upholstery comes from the Middle English *up* and *holden*? And while Caracole chairs are designed to hold up beautifully in your home, their top priority is to look spectacular.

And they do! **Just Wing It** is clean, sleek and contemporary, with nickel nail head trim and chrome feet that call out for attention. **Savoir Faire** is never out of place, with its exposed wood and traditional silhouette in a casual linen cover. The crackle finish and spaced nail head trim couldn't be more appropriate! With **Hi Ho Cheerio**, modern styling meets rustic ash wood with a washed finish. The result is a unique chair that's a welcome addition to any setting. Ready to **Strike A Pose**? Be sure to show off your fluted leg, nickel ferrell and art deco styling. You'll be **Sitting Pretty** in this exposed wood chair, dressed in a yummy chocolate and apricot art deco-inspired fabric. And as **Hostess With The Mostest**, you deserve a perfectly scaled wing chair that stands alone or joins you at the head of the table.

**Oui Oui** will definitely give your interior a French accent. This elegant sofa celebrates the resurgence of carved wood frames with layers of luxurious linens, nail head accents and an exquisite gesso finish. And finally, it's fortunate that our **Tuft Luck** settee offers upscale seating in a smaller size. An ivory, textured fabric complimented by a dark cabriole leg creates a formal elegance that looks stunning, not stuffy.

“The ultimate goal of upholstery is to add softness and style to your favorite spaces”

Caracole upholstery is designed with sleek forms and creative fabrications that have a straight-off-the-runway look. Our **Cut Above** sofa wears a linen-like texture in gray-blue tones and taupe accents. With detailed tailoring and a contrasting pierced rail, it could easily become a casual-contemporary centerpiece for your light-and-airy sitting room.

kristine

*Caracole has been extremely popular since its launch. We asked Kristine Capra, Director of Upholstery Merchandising, about what designers and consumers have found most appealing.*

**Q: WHICH CARACOLE UPHOLSTERY PIECES HAVE BEEN YOUR BEST SELLERS SO FAR?**

A: I'm delighted – and a bit surprised – to say that our “Hi Ho Cheerio” chair is out-selling everything. Consumers really relate to its great style and unique look. Another popular chair is a wing design called “Just Wing It”. Everyone loves its contemporary lines and chrome legs. But all of Caracole’s chairs are doing well. That’s because each design is intended to stand alone, as if you’re adding a favorite piece of jewelry to the room.

**Q: THAT’S GREAT FOR CHAIRS. HOW ABOUT CARACOLE’S SOFAS?**

A: When Caracole was introduced, the most popular was our “Tailor Made” style. It’s another very unique design; in fact there’s nothing else in the marketplace like it. We introduced “Oui Oui” as our more sophisticated interpretation of the French Laundry look, and it’s become our best selling sofa frame. It’s a beautiful casual lifestyle statement that offers incredible comfort.

**Q: WHERE DOES MOST OF YOUR DESIGN INSPIRATION FOR CARACOLE COME FROM?**

A: Much of my inspiration comes from traveling abroad. We gather ideas from antique shops, grand old houses, custom upholstery shops and trade magazines, just to name a few. Most important, we have our own in-house designers who work upholstery exclusively. We pride ourselves in being creative, current... and highly original!

**Q: HOW HAS CONSUMER REACTION BEEN TO A ONE-CHOICE FABRIC SELECTION?**

A: Studies show that 80% of consumers purchase upholstery as shown. It’s true: Caracole customers want to take our upholstery off the floor and out the door! Designers see the value in our frame designs, and recognize the potential for various other looks. They know they have the ability to change out the pillows and make it their own.

**Q: WHAT ARE THE CHALLENGES IN CREATING THE CARACOLE UPHOLSTERY LINE?**

A: We work hard to keep up with home fashion trends, but we also strive to create style innovations that set us apart from our competitors. Since you only have once chance to capture a customer’s attention, we focus on selecting the most appealing fabric for each silhouette. Upholstery requires a precise blend of frame, fabric and comfort to be successful, and we master all three with each design!

**Q: WHAT ARE THE ADVANTAGES OF CORRELATING UPHOLSTERY AND OCCASIONAL TABLES?**

A: Many upholstery manufacturers don’t even offer coordinating occasional tables! This creates a challenge for the consumer, who has to go to find pieces that will be the right size, scale, shape, color and finish. With Caracole, we collaborate with our case good designers to develop the perfect, complete setting. And we make sure our table prices are in line with the price of the sofa or chair.

**Q: WHAT DIRECTION DO YOU SEE CARACOLE’S UPHOLSTERY DESIGN HEADING?**

A: With all the technology around us at work, people want to relax at home with cozy, warm interiors. We’ll focus on neutral grays with ivories – in linen-base fabrics. Upholstery lines will be cleaner, with softer curves and a greater sense of uncluttered simplicity. We’ll do a selection of small-scale settees and tufted sofas, for smaller rooms. And we’ll continue to create multipurpose pieces that can function in any room of the home.
