METAL DESIGNS

At Artistica Home, we believe that exceptional furniture design is a creative art. Our passion for innovation is grounded in the belief that your home is the ultimate reflection of personal style.

As a result, the Artistica portfolio features original designs that are carefully curated and decidedly chic. The brand aesthetic has, at its foundation, three creative imperatives - an eye for timeless historical references, a relentless pursuit of unique materials, and a commitment to artisan craftsmanship and custom finishes.

For over four decades, Artistica has been renowned for exceptional craftsmanship in forging and finishing iron furniture designs. The Metal Designs Program features a distinctive assortment of original silhouettes offered in your choice of four finishes – St. Laurent, Argento, Silver Leaf and Gold Leaf.

These artisan finishes are applied by hand, and incorporate up to a dozen individual steps. The result is the one-of-a-kind look of a commissioned piece. Artistica Home maintains a stocking position on the Metal Designs portfolio at the company's distribution complex in North Carolina to facilitate immediate delivery.

METAL DESIGNS

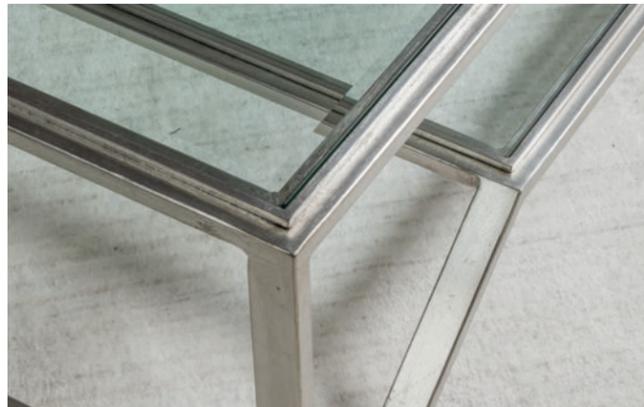

Our namesake collection of hand forged iron styles, in your choice of four custom finishes

Many years ago, in a small workshop in downtown Los Angeles, we built our first iron occasional table. Shapely, beautiful, and forged entirely by hand from solid iron, it became the touchstone for everything we do.

For over four decades, Artistica has been renowned for our craftsmanship in forging and finishing iron furniture designs. The ages-old hallmarks of fine ironwork begin with the fire of the forge and the power of the anvil and hammer, and every piece we produce reflects the skills of master blacksmiths.

These sculptural forms are then carefully finished in four distinct colorations, incorporating up to a dozen steps of hand application, building up multiple layers of texture and directional dry brushing.

Each beautiful Metal Designs finish was developed to reflect this level of work by hand, and carries the unique qualities of the artist's brush.

OCCASIONAL TABLES

Many of our newest introductions are grounded in the true art of ironwork: hand forging and shaping solid metals into beautiful, textural forms. Solid iron is heated to a brilliant orange in a forge fire and then hammered by hand upon an anvil, creating designs guided by the blacksmith's eye.

Our Ellipse series is an exploration of the oval form, with elliptical motifs in balanced intersections that change form depending on the angle of view. The ovals themselves are created with flat bar stock forged with a hammered chatter pattern on both sides, then hand shaped and placed within linear frames.

When viewed directly from the front or side, the cocktail's ellipses appear uniform; when viewed from any other angle, they appear to be a sculptural swirl. Shown above in Silver Leaf.

METAL DESIGNS - 2234 SERIES/ELLIPSE

Sculptural Modern designs in hand forged solid and tubular iron, lay-on tempered glass tops

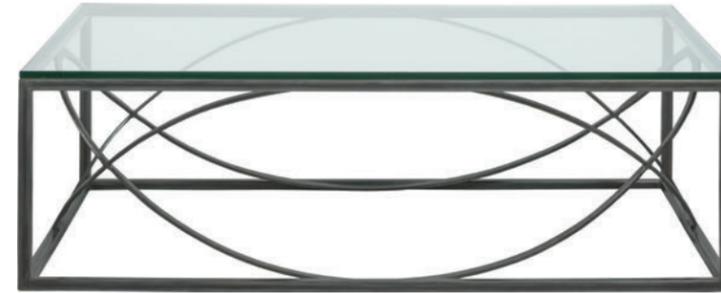

Hand forging is critical to creating the sculptural ovals of each table or etagere. Components of each ellipse are first heated in the forge fire and given textural chatter marks hammered into the solid iron, and then carefully shaped to exacting shapes before being welded together and inset into the linear frames. Shown above in Gold Leaf.

METAL DESIGNS - 2233 SERIES/CLARET

Transitional designs in solid iron with inset tempered glass tops and shelves

Claret is built entirely of solid iron, with legs tapered by hand in the forge before having organic chatter marks hammered into the exposed surfaces. The results are simple, proportionate forms with great textural depth, featuring tempered glass tops and shelves. Shown above in Silver Leaf.

METAL DESIGNS - 2231 SERIES/BRUNO

Transitional designs in hand-forged, hammered and tapered iron with lay-on tempered glass tops

The light scale of Bruno's forms belies their substance. Forged entirely in solid iron with a hammered texture on all surfaces, these designs capture the creativity and skill of the blacksmith while providing a range of surface sizes to display the depth of our finishes. Shown here in St. Laurent.

METAL DESIGNS - 2230 SERIES/BYRON

Transitional designs in tubular and solid iron, with inset tempered and beveled glass

At 60" wide, Byron's rectangular cocktail — the largest in the program—provides scale for large upholstery without visual bulk. The elevated lower shelf is supported by canted stretchers and is just the right size to balance the design. Shown here in Gold Leaf with the Ellipse end table (page 10) .

METAL DESIGNS - 2232 SERIES/SOPHIE

Contemporary designs in solid iron with inset tempered and beveled glass tops

Sophie features contemporary, almost Space Age designs in hand shaped plate steel, and is ideal for settings with either sofas or sectionals. Though there is not a straight line in these silhouettes, they still boast a Modernist flair and are comfortable in any updated setting. Shown here in Silver Leaf with the Claret End Table (page 17).
