

## The Legacy of an Explorer

In an era when exploring the globe made destination travel both an art form and an event, Henry Link was an eager participant. With camera and sketch pad in hand, he journeyed from Kenya and Tanzania in East Africa to Gotemba, Japan at the base of Mount Fuji.

As a collector with a keen eye for blending unique materials and exotic designs, Henry Link was an icon in the furniture industry. One of Lexington's original founders, he was inducted into the Furniture Hall of Fame for his legacy of innovative design and manufacturing.

Henry Link Trading Co. reflects the passion of a man, whose pursuit of the unknown took him around the globe seeking inspiration for his furniture designs. Items are hand-crafted with distinctive materials and custom finishes that expand the boundaries of elegant style.

Lexington Home Brands proudly recognizes the legacy of a great explorer with the introduction of Henry Link Trading Co.
