THE STUFF OF LEGENDS.

A STORY ROOTED IN QUALITY CRAFTSMANSHIP, INNOVATION & AMERICAN HERITAGE.

It all began back in 1928. Two young cousins, Edwin J. Shoemaker and Edward M. Knabusch, joined together to design a chair that would add both comfort and enjoyment to the lives of millions of families – and the world’s first recliner was born! What began in the small community of Monroe, Michigan has expanded beyond recliners with thousands of dedicated workers in manufacturing facilities across North America. Nearly all of our furniture is proudly built in the U.S.A. from domestic and imported materials. So not only can you feel good about your furniture, you can feel good about where it’s made.

Choose from a variety of shapes and sizes, then customize the options and upgrades that are right for you. Is there such a thing as too many choices? We don't think so.
