

How to Care For and Clean Glass

High class sophistication and modern opulence are just a few of the descriptors most often associated with glass furniture. Glass elements also brighten up rooms and give the illusion of space, as its transparency doesn't obstruct the view on the opposite side. This beauty and elegance does come with a potential downside: it can be very fragile and easily dirtied. Keep your glass furniture sparkling and radiant with the following instructions.

General Cleaning & Care:

Do...

- Clean using warm water and a soft, lint-free cloth. Wring out excess water and wipe surface. Dry immediately with a dry lint-free cloth.
- A non-abrasive commercial glass cleaner may be used.

Don't

- Slide rough objects across glass. This can cause permanent scratches to the surface.
- Use abrasive cleaners on glass
