

COVID-19 SAFEGUARDS

FOR YOUR SAFETY

Social Distancing

We have arranged the general meeting areas to allow for additional space to accommodate the 6 foot social distancing protocol. We have also removed unnecessary floor displays to create more room so you can move freely about the showroom.

Our Showroom

We are routinely cleaning and disinfecting surfaces, doors and other high touch areas throughout our showroom. Hand sanitizer is readily available and all team members have face masks. Please wear a face covering for additional protection.

Our Team Members

We are closely monitoring the health of our team members and enforcing the policy of staying home if feeling ill.
