## PRODUCT HIGHLIGHTS

### IPS 4K

One of the secrets behind LG TVs' outstanding UHD performance is the specially designed display panel. IPS 4K delivers true colors that remain more consistent at wide viewing angles, with four times the resolution of Full HD. With IPS 4K, any seat can be the best in the house.

### LED Plus

All LG LED TVs deliver crystal-clear images and vivid colors, but LED Plus goes even further, with local dimming technology that provides greater contrast.

### Prime UHD

PRIME 4K UHD TV signifies LG's premium line of 4K ULTRA HD TVs: beautifully designed with our latest features and the most advanced technologies inside. PRIME 4K UHD TVs combine ULTRA Luminance, an IPS 4K panel and most notably ColorPrime, which displays a wider color range for a more realistic expression of virtually limitless colors, as in life.
