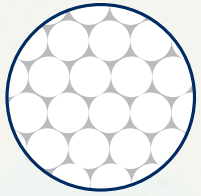
Plush

A softer sleep surface achieved by using specialized body conforming materials.



Memory Foam

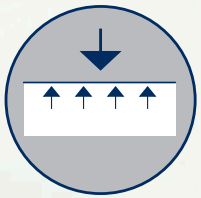
Memory foam conforms to the body of the sleeper, relieving pressure points and providing a more restful quality of sleep.

744 Individually Wrapped Coils

Individually wrapped coils isolate motion and lessen the disturbance of a sleep partner turning over in the bed.

Power Base Compatible

Mattress may be used with a power base that can be used to create a variety of rest positions such as elevated feet, elevated head, etc.



Foam Encased

Foam encasing supports the perimeter of the mattress and increases the life of the mattress since the edges receive the most compression and show wear first.
