CHAMPLAIN

At the heart of country living

A TRIBUTE TO ONESELF

It is often through change that we rediscover ourselves and refocus on who we are. That's exactly what I experienced when I moved and renovated my new home.

For me, interior design is much more than just an aesthetic exercise: it's a profound and instinctive way of expressing myself. It's also a response to a basic need, which is to feel good at home. Creating a sanctuary that reflects who we are and makes us proud requires imagination, intuition and heart. The key to successful decorating? Paying attention to every detail, so that each one reflects a fragment of our personality. It also means creating a peaceful and reassuring environment that we never tire of, one that is conducive to gatherings and memories.

More than 40 years ago, Canadel set the mission of designing and manufacturing exceptional furniture. Furniture that reflects the personality of each customer. Locally assembled and hand-finished with passion and expertise, our furniture can be customized down to the smallest detail to harmonize perfectly with your tastes and needs.

The Inspired magazine was born out of my desire to share my passion for interior design, the art of entertaining, and well-being at home. In this twelfth edition, we are delighted to unveil our latest products, shades, textures and patterns. We hope it inspires you to fully express your style and enjoy creating the home of your dreams.

This will create a soothing atmosphere with a genuine sense of freedom.

In this vast open space, the stools and dining room set from the Downtown collection bring the decor to life without weighing it down. The 01 Honey washed wood tone adds brightness and warmth, while the textured fabrics evoke comfort.

DESIGNER TIP

Mixing different colored furniture within a set is a simple and effective way to add character and depth. Here, the contrast between the 25 Pecan washed stain and the deep black of this stunning buffet creates a striking effect.

A WELCOMING HAVEN

What a joy it is to be home, especially when sharing precious moments with loved ones. This new chair from the Modern collection blends harmoniously into this enchanting space, offering exceptional comfort without compromising on style. All that's left is to set the table: rattan placemats, stoneware plates, gingham napkins, gold cutlery, pretty bowls, and delicate flowers... Everything you need to enjoy a leisurely, unforgettable meal in good company.

STYLE. COMFORT. HARMONY.

Once the meal is over, move to the living room to prolong the pleasure and relax. Our ultimate tip for creating a cozy and inviting space conducive to conversation? Arrange sofas and armchairs in a U-shape around a beautiful coffee table. And in front of a fireplace... It's simply the ultimate! The result is a comfortable and welcoming environment.

The choice of furniture plays a key role in the success of a beautiful classic decor. We favor top-quality furniture with timeless designs that stand the test of time and defy trends. Solid wood is our choice material, a noble and durable material that lends character and refinement to any room. At Canadel, our commitment to quality is reflected in the rigorous processes and handcrafting methods used by passionate local artisans.

A REPUTABLE SEAL OF QUALITY

Canadel-made furniture means certified quality, style, and durability. And it comes with the profound knowledge and attention to detail of artisans who have been devoted to crafting wood for 40 years. We are immensely proud to offer exceptional custom furniture that has been meticulously assembled and finished by hand. Our innovative designs and processes combined with sophisticated construction give us an exceptional advantage. Our timeless pieces are so well made that they'll become cherished family treasures.

We mainly use birch hardwood for beautiful and sturdy pieces. Other hardwoods are also used in some collections. To highlight the beauty of the wood, we make sure our furniture has a unique and natural look.

Every model is tested and inspected several times during manufacturing to make sure it exceeds even the most stringent safety and quality norms in the industry. Canadel's exemplary consistency on this point makes it a leader in its field. This level of quality control goes well beyond the factory: our packaging, shipping, and customer service also meet strict and rigorous criteria.

As part of its ongoing efforts to reduce its environmental footprint, Canadel is implementing a number of sustainable initiatives at every stage of its production process. Among these efforts, the company holds the GREENGUARD certification for its low volatile organic compound emissions, producing furniture that is in greater harmony with nature, while also contributing to a healthier, more pleasant working environment. Canadel also prioritizes materials from responsible and renewable local sources whenever possible to reduce transport-related emissions and support the regional economy. On the manufacturing side, efficient methods have been implemented to minimize waste. Energy consumption is closely monitored as well—production sites are equipped with LED lighting, among other measures. Packaging is also produced from recycled fibers. Recycling, in fact, lies at the heart of Canadel's initiatives. We ensure that used oil, batteries, neon lights, aerosol cans, cardboard, pallets, dye and paint containers, and much more are all given a second life. We believe in quality craftsmanship that supports thoughtful, responsible consumption.

THE DESERT AESTHETIC

Dreaming of escape, warmth and tranquility? Imagine walking barefoot in the warm sand, lulled by a gentle breeze, in a place where time seems to stand still. What if you could recreate this feeling in your own home?

WORDS BY **TANYA BROUILLETTE**
PHOTOS **ANDRÉ RIDER**
STYLIST **STÉPHANIE RENIÈRE**

For an original and serene decor, draw inspiration from the raw and soothing beauty of desert landscapes. Choose a warm, earthy color palette reminiscent of the sun, dunes and vegetation found in these arid environments. Prioritize natural fibers and materials such as wood, linen, burlap and terracotta. Adding cacti, succulents or yuccas is the perfect finishing touch to this aesthetic.

The delicate plaid pattern is also perfect in this decor! With its thin burnt orange lines, this beautiful fabric blends perfectly with the 03 Oak washed wood tone of this dining room set from the Gourmet collection.

RETRO POP

The mid-century modern style is more popular than ever! Its understated decor, clean lines and pops of bright color create spaces that are both fun and bold.

NATURAL ECHOES

Here, nature permeates every detail. The deep green of these beautiful chairs from the Modern collection blends beautifully with natural materials, such as light wood and marble-look porcelain. The organic silhouette of the table blends seamlessly with the forest stretching out beyond the magnificent windows, creating a gentle harmony between indoors and outdoors.

STRONG CHARACTER

Here are even more options to assert your style! Canadel is expanding its already generous selection with new trendy fabrics and unique wood tones. Let your creativity run wild: the combinations for designing a personalized set are endless.

DESIGNER TIP

Use colorful objects and original shapes to energize your decor and create a balanced, lively space that will be easy to update over time.

AN EXCEPTIONAL SETTING

Dreaming of creating the perfect mid-century vibe? Above all, focus on simplicity and functionality, but don't forget to be bold! We love this coffee table set from the Accent collection. Shown here in 20 Caramel washed and B2 Onyx porcelain, this set will instantly add style and elegance to your space. Complete the look with accessories in an earthy color palette, such as forest green, midnight blue, terracotta, burnt orange, or yellow ochre. Finally, have fun mixing shapes and patterns to create a unique room!

DRENCHED IN COLOR

Rich, deep hues, dark
woodwork, sculptural details:
these are the elements
that breathe character and
personality into a decor!

WORDS BY **TANYA BROUILLETTE**
PHOTOS **ANDRÉ RIDER**
STYLIST **STÉPHANIE RENIÈRE**

In this kitchen, it's all about balance. The blue island, custom hood, and stools with intricate backrests immediately catch the eye, while the light tones, paneling, and delicate shelving in lieu of cabinets soften and refine the overall look.

Found a unique fabric that seems made for your decor? Canadel can use it to upholster your chairs, benches, and stools!

FULL IMMERSION

This dining room is majestic. Inspired by the color drenching trend, it woos you into surroundings of a single color to create a cozy atmosphere. Here, sumptuous burgundy velvet blends perfectly with the wall color, intensifying the monochrome effect. The 19 Cognac washed finish of these new pieces from the Canadel collection also brings unparalleled richness to the room, as do the classic architecture and refined details of the furniture.

A DRAMATIC TOUCH

Each room in this home exudes bold originality. In the entryway, the sideboard from the Canadel collection, set against a deep black wall, creates a striking tone-on-tone effect. In the second kitchen, the houndstooth fabric echoes the entryway's checkerboard tiles. Together, they bring a touch of surprise and energize the space. This graphic contrast adds a refined and theatrical note while remaining timeless.

MODERN SPLENDOR

Sleek... Refined... Grand...
The Modern style proves that beauty comes from simplicity. In this space, a carefully designed dining room set is enough to catch the eye and bring structure to a room. Enhanced by a panoramic view, the setting exudes effortless elegance.

WORDS BY **TANYA BROUILLETTE**
PHOTOS **ANDRÉ RIDER**
STYLIST **STÉPHANIE RENIÈRE**

Natural wood, dark furniture, textured fabrics—the decor relies on contrasts to create an atmosphere that is both chic and refined. The richness of the space is revealed in the subtle combination of clean, organic lines, contrasting neutral tones, and raw materials. This magnificent buffet from the Modern collection, shown here in 09 Dark smoke, adds a distinctive touch with its smoked glass doors. To top it off, adding some greenery: a few branches, foliage or a plant will bring freshness and balance to the room.

DESIGNER TIP

Be bold and add curves to your modern interior! They soften and energize the space, while remaining resolutely minimalist. This new fluted table from the Modern collection and the chairs from the Downtown collection embody this approach with ease.

ONE BIG FAMILY

FROM THE BEGINNING TO TODAY

Ever since Canadel was founded more than 40 years ago by André Deveault and his son Guy, it has been run by a tight-knit team. When Guy's brothers Michel and Jean came aboard, the family business became even stronger.

While Guy and Michel still play active roles in the company, it's clear that the next generation is making a mark in their own right. Their adult children now hold important positions in different departments and work closely together every day.

The first generations of Deveaults started a solid company, built a loyal team, and created highly successful products. The next generations are following in their mentors' footsteps, doing their part to introduce innovations that keep the company up to date with all the latest trends and technologies.

THE KEY TO SUCCESS

Over time, the team incorporated valuable new members, like André Giguère, who has been general director for several years now. With his particular skills, dedication, and sense of altruism, he has become essential to the company.

Excellence, enjoyment, and goodwill are important aspects of Canadel's values, and they help transform work relationships into deep friendships. Yet it's more than that: our company feels like a big family. We truly treasure our team of loyal, passionate individuals, each with indispensable skills.

The family relies on each individual's expertise and strengths to make an unbeatable team. Left to right: Timoty, Michel, Tristan, Marie-Christine, Jean-Philippe, and Guy.

INVOLVED IN THE COMMUNITY

Canadel is constantly thinking of the well-being of its employees and their families. And its actions confirm that the company takes care of its own, by offering up a beautiful fishing camp, outdoor spots to relax near work, a day camp for employees' children, and all kinds of festive family events.

Canadel is also actively involved in its community. The company takes part in many different initiatives, to help make the area a dynamic and stimulating place to live. Canadel is thrilled to contribute to new sports and park infrastructure, to support schools, and to take part in many local events.
